John, Carrie, the FS letter will be signed in a few minutes. I went with plan B, meaning EPA will just re-do the ARARs table in the ROD and not worry about the FS version.

So the only thing Gary needs to do is fix the date on the cover page (August 2013), get rid of the redline/strikeout and get it to me and Robert Keating (cc'd above) as soon as possible.

Also when B&C has their final docs ready, please send me the link and, again, cc Robert Keating .

Lastly, I'll need a name/address/phone number for the bills from the newspaper and stenographer. Please send that to me and Natalie Loney (cc'd above).

I'm out of the office tomorrow and Monday (naturally), but can be reached at 917 513-1538.

Jon

Ps, the meeting is going to be held on the 28th at 7:00pm at the Tremley Point Rec Building, 2907 Tremley Point Road.

RE: Approval of the Feasibility Study Report for the LCP Chemicals, Inc. Superfund Site,
Linden, New Jersey,

Dear Mr. Hoffman:

The United States Environmental Protection Agency (EPA) has reviewed the Feasibility Study Report (FS) dated August 2013 and prepared by Cornerstone Engineering Group, LLC for the LCP Chemicals Superfund Site (Site) located in Linden, New Jersey. The information contained in the FS is sufficient for EPA to make Site related decisions. Therefore, EPA approves this final version of the FS.

If you have any questions or would like to discuss this matter further, please contact Jon Gorin, of my staff, at (212) 637-4361.

Sincerely yours,

A handwritten signature in black ink, which appears to read "Carole Petersen", is written over the "Sincerely yours," line.
